Meet the Dentists

Using advanced technology to provide better care since 1982

Atlanta Dental Center has always been on the cutting-edge of technology, and as we go into 2015, it boasts all the major innovations that make dentistry more accurate, more comfortable and more efficient for its patients.

While the practice is high-tech, it retains its friendly and caring character. "Personal care and communication with our patients is of utmost importance to us. We consider our patients our friends," says Dr. Lee.

Jessica Lee, DDS

Dr. Lee earned her dental degree from the University of Michigan. She is a member of the American Academy of Cosmetic Dentistry and she has a strong focus on cosmetic and aesthetic dentistry. Dr. Lee is a Preferred Provider for Invisalign, is proficient in CEREC one-visit dentistry and has advanced training in implant dentistry and restoration.

Robert Schmidt, DDS

Dr. Schmidt is a graduate of Emory University and Marquette University School of Dentistry. He was one of the first five dentists in the greater Atlanta area to achieve the highest certification level in the Invisalign technique. He also has advanced training in implants and CEREC. A keen contributor to the community, he serves as the dental consultant for the Hemophilia of Georgia Organization.

Robert Vazquez, DDS

Dr. Vazquez completed his graduate and postgraduate training in periodontics at the University of Tennessee and the VA Medical Center in Tennessee. He has practiced periodontics, the dental specialty of dental implants and gum treatment, since 2000. His great love is implant dentistry and he has placed thousands of dental implants. He is experienced in all implant procedures, including New Teeth in One Day and the All-on-Four technique.

A Legacy of Excellence

Over the past 33 years I have worked alongside my husband, Dr. Joel Benk, the founder of the Atlanta Dental Center. He started his practice in 1982 with a vision and passion for helping people all over Atlanta improve their lives through quality dental care. He took pride in the excellence of dentistry he provided to everyone who walked through our doors. Dr. Benk was constantly on the cutting edge of dental technology, continuing his training throughout his life so he could offer only the best to the patients of our practice. He not only required this of himself, but of every dentist who worked with him. As a team, we could always deliver high quality dentistry consistently, no matter which dentist performed the work. Dr. Benk believed you should never let a day go by and not learn something new or help someone do better. Because of that deep-rooted belief, we have constantly improved our services while still maintaining our family environment.

Today, my son, Joshua, and I continue Dr. Benk’s vision of our practice. We are achieving this daily with an unwavering dedication to helping Atlanta residents improve their smiles and oral health and wellbeing. We look forward to seeing you in the office soon, and working with you to achieve the dental health and smile you deserve.
